EMPLOYMENT

Freelance

February 2022 – present

Production Manager

2013 – February 2022
SJP Business Media

Graphic Designer

2008 – 2013
St John Patrick Publishers

Junior Graphic Designer

2005 – 2008
Propel Design

EMPLOYEE OF THE YEAR AWARD

“We nominated Alex in recognition of how he has coped effortlessly with a constantly changing production schedule. Despite this challenge, he’s never missed a step. He always puts in the hours to get the job done, even if this means giving up his own time at the weekends. He is passionate about design with great examples such as Think Bigger. Keep up the good work Alex and enjoy your prize!”

Wayne Darroch
MD, SJP Business Media

Seeking a position within a challenging and growth environment, where I can utilise my many years of experience and passion in design, digital media and artwork.

EXPERTISE

Production Management

Extensive experience managing production schedules across multiple teams of editors and sales staff. Orchestrating event logistics, website hosting / maintenance, and scheduling email campaigns.

InDesign / Pre-print

I have a deep knowledge of print production going back to my early career in magazine design. I still have a role producing many kinds of printed materials.

Photoshop / Illustrator

One of my passions is digital art. I’m as happy creating cover art for a magazine as I am manipulating complex vectors in Illustrator.

HTML / CSS

I am an experienced Web Designer working in the B2B field and with many freelance clients. I am proficient in the use of HTML and CSS.

Animation / After Effects

Animation has been a hobby of mine for a while. I’ve been lucky enough to utilise this passion in a professional setting by directing productions such as logo reveals and video interviews. I have also created many video walls and TV stands for live events.
